**indicates original article*

A

A. C. A. RATIO
—importance of the A. C. A. ratio in industrial and school success, 687

ACCOMMODATION
—accommodative response to the eye to the electrical stimulation of the ciliary ganglion in cats, 537
—balancing accommodation and convergence by decentration of lenses, 381
—ciliary body in accommodation and accommodation-convergence, 677
—investigation of the time characteristics of accommodation and convergence, 168

ACCOMMODATION—CONVERGENCE-GRADIENT
—*See A. C. A. Ratio.*

ACOUSTIC NERVE
tumors:
—trigeminal symptoms in acoustic nerve tumors, 476

ACTH
—uses and abuses of adrenal steroids and ACTH in ophthalmic diseases, 523

ADAPTATION
—nervous and photochemical components in visual adaptation, 166

ADENOTOMY
—incidence of poliomyelitis following tonsillectomy or adenotomy, 108

ADRENAL GLANDS—*See Steroids, adrenal*

AGING—*See also Old Age.*
—absorption of vitamins and enzymic activities in aging, 429
—endocrine stress and aging, 424
—fat metabolism with particular reference to problems of aging, 426
—hemopoietic factors with reference to aging, 422
—present status of physiological and biochemical studies of aging, 425
—protein metabolism, with particular reference to problems of aging, 428
—role of comparative physiology in the study of aging, 423
—some observations on blood and urine vitamin levels in the aged, 427
—special nutritional problems of the aged, 429

AGRANULOCYTOSIS
—agranulocytosis associated with phenylbutazone therapy, 483*

AIR CONDITIONING
—further observations on the conditioning of respiratory air, 299

AIR TRAVEL—*See Motion Sickness.*

ALACRIMIA
—congenital alacrimia in familial autonomic dysfunction, 532

ALLERGY
—allergic dermatitis, 578
—studies on the histopathology of pollinosis, especially concerning the absorption of pollen through the nasal mucosa, 104

AMBLYOPIA
—role of occlusion in amblyopia correction, 674

AMINO ACIDS
—perceptive deafness treated with vitamin-B complex and amino acids, 478

AMINOACIDURIA
—the aminoacidurias, 213

AMINOPHYLLINE
—enhanced theophylline blood levels obtained after ingestion of choline theophyllinate as compared to aminophylline with or without aluminum hydroxide, 251*

ANESTHESIA—*See also Hibernation, artificial.*
—anesthesia in operative obstetrics, 359
—safer anesthetic for peroral endoscopy, 482
potentiated:
—potentiated anesthesia, 315*

ANGINA
—cardiac pain in man, blocking effect of ethyl chloride spray in the angina of ergonovine, 216
—effective prophylactic treatment of the anginal syndrome with choline theophyllinate, 263*

ANGIOMATOSIS RETINAE
—angiomatosis retinae (Von Hippel's disease) 11 years after irradiation, 386

ANNOUNCEMENTS
—dedication of Institute of Microbiology, Rutgers University, 274

ANTIBIOTICS
—mucoviscidosis, evaluation of antibiotic therapy, 576
—sinus disease in the antibiotic era, 601
broad spectrum:
—long range study of the use of broad spectrum antibiotics in elderly people, 49
new:
—new broad spectrum antibiotic product of the tetracycline group, 53
—ruticin, a new antibiotic, 54
resistance to:
—Furadantin in the treatment of infections due to antibiotic resistant organisms, 218
synergism:
—action of streptomycin-bacitracin-polymyxin combinations, 50
—antimicrobial agents, their activities alone and in combination, 50
therapeutic use:
—antibiotic therapy of rickettsial diseases, 546*

therapeutic use:
—antibiotic therapy of rickettsial diseases, 546*

—antibiotics in the prevention and treatment of infection in newborn and premature infants, 574
—antimicrobial agents in the management of pulmonary tuberculosis, 279
—problem of antibiotic therapy in staphylococcal septicemia, 50
ANTIBODIES
—capillary tube method for antibody determination, preliminary studies in aqueous of rabbits sensitized with various antigens, 680
ANTIHISTAMINES
—susceptibility of the vestibular apparatus to antihistamines and D. F. P., 617
ANTIMICROBIAL AGENTS—*See Antibiotics, synergism.*
APHAKIA
—image magnification in corrected aphakia, 526
ARTERIOSCLEROSIS
—diet and arteriosclerosis, 432
ARTHRITIS
rheumatoid:
—intraarticular hydrocortisone in rheumatoid arthritis, 515
ARTISTS
—artist as physician, medical philosophy in the Renaissance, 221*
ASCORBIC ACID—*See Vitamin C.*
ASTHMA
bronchial,
—effective use of choline theophyllinate in the treatment of bronchial asthma and premenstrual molimina, 265*
—principles of treatment in bronchial asthma, 282
ASTIGMATISM
—posterior half-incision of cornea for astigmatism, 169
AUDIOMETRY
—difficulty in conditioning galvanic skin responses, its possible significence in clinical audiometry, 611
—objective skin resistance audiometry, the electro-audiogram (EAG), 610
AUREOMYCIN—*See Chlortetracycline.*
AUTOMOBILES
—role of vision in motor vehicle operation, a review, 365*
AVIATION—*See Motion Sickness.*

B

BACITRACIN
—present status of bacitracin available for systemic (intramuscular) administration, 47
BALLISTOCARDIOGRAPHY
—electrocardiogram versus the ballistocardiogram, 55*
BICILLIN
—evaluation of dibenzylethylenediamine pencillin in the prevention of rheumatic fever by treatment of the preceding streptococcal illness, 52
—prophylaxis against group A streptococci in rheumatic fever patients by the use of single monthly injections of N,N′ dibenzylethylenediamine penicillin G (Bicillin), progress report, 46
BIOPSY
—aspiration biopsy in intraocular tumors, 170
—frozen section biopsy in peroral endoscopy, 481
BLIND SPOT
—filling-in process, 672
BLINDNESS
—changing attitude towards the blind and the partially sighted, 688
—eye research in relation to organizations for the blind, a new example of teamwork, 164
—preschool blind child and his needs, 174
BLOOD—*See also Hemopoiesis.*
—blood particle agglutination and fat embolism, 439*
—fetal and neonatal blood formation, 575
chemistry:
—ascorbic acid levels in blood and gastric secretions, 465
coagulation:
—dynamic concept of hemofluidity, 37*
—hereditary defects of blood coagulation, 13*
BLOOD PRESSURE
high—See Hypertension.
BONE
grafts:
—bone graft for atrophic rhinitis, 299
BONE CONDUCTION
—blocked bone conduction test for differential diagnosis, 615
—bone conduction studies after fenestration surgery and predictions of hearing results, 614
—studies on the bone conduction in occlusion of the meatus and in chronic sound conduction deafness, 290
BONE MARROW
—effect of chloramphenicol on the bone marrow in infants and children, 48
BONES
injuries to:
—radiologic signs of trauma to the growing skeleton, 580
BOOK REVIEWS
—Clinical orthoptics, 538
—Familial nonreaging food allergy, 388
—Handwriting and the emotions, 275
—Headache and other head pain, 178
—Highway safety and driver education, 690
—Introduction to physiological optics, 690
—Ophthalmologic diagnosis, 538
—Pediatrics, 277
—Vision: its development in infant and child, 177
BRAIN
diseases:
—changes in the brain following smallpox vaccination, 431
—contribution to the clinical study and etiology of nonsuppurative endocranial complications of aural and nasal origin, 293
BRONCHI
cancer:
—late results of treatment by interstitial irradiation of one hundred cases of carcinoma of the bronchus, 306

BRONCHOSPASM
—choline theophyllinate in the management of bronchospasm, 271*
BURMA
—eight clinical cases from the notebook of a Burma surgeon, 79*
BUTAZOLIDIN—*See Phenylbutazone.*

C

CANCER
—clinical studies on anticancer agents, 1952-53, 398*
CARBON MONOXIDE
—vestibular symptoms in carbon monoxide poisoning after unilateral ligation of the common carotid artery, 99
CATARACT
—cataract and its etiology, 681
—cataracts in galactosemia, 170
congenital:
—study of cataracta centralis, 170
surgery:
—suction cup for cataract extraction and insertion of Ridley's lens, 383
CHAIN, ERNST BORIS
—biography, 134
CHEMOTHERAPY
—chemotherapy in certain forms of juvenile tuberculosis, 571
—development of bacterial chemotherapy, homage to Paul Ehrlich, 109*
CHIASM
optic:
—traumatic lesion of the optic chiasma with anterior pituitary insufficiency, 530
CHILDREN
—clinical control of hemorrhagic disorders in children, 3*
—effect of chloramphenicol on the bone marrow in infants and children, 48
—endogenous uveitis in children, 169
—idiopathic thrombocytopenic purpura in childhood, 34*
—pathologic findings in nine children with "primary" pulmonary hypertension, 602
—preschool blind child and his needs, 174
—symposium on hemorrhagic disorders in infants and children, Editorial, 1*
—uveitis in children, 384
deafness in:
—auditory training for the pre-school hard of hearing child, 293
—clinical aspects of high tone perceptive deafness in children, 609
—hardness of hearing in school children, an audiometric testing of 2,550 pupils in municipal schools in Copenhagen, 608
—hearing and language evaluation with hard of hearing children, 294
psychoses:
—comments on a psychotherapeutic session with a space child, 592*
vision in:
—investigation of visual performance among selected groups of school children, 382
—the Pullman study, a visual survey of Pullman school children, 521
—study of visual performance of mentally retarded children, 687
CHOLINE THEOPHYLLINATE
—choline theophyllinate, a new stable theophylline derivative of enhanced solubility, 245*
—enhanced theophylline blood levels obtained after ingestion of choline theophyllinate as compared to aminophylline with or without aluminum hydroxide, 251*
—inhibition by choline theophyllinate of water retention induced by pitressin, 256*
—pharmacology of choline theophyllinate, 248*
—quantitative reversal by choline theophyllinate of the antidiuresis induced by desoxycorticosterone acetate, 259*
therapeutic use:
—choline theophyllinate, a new xanthine drug for the effective oral treatment of congestive heart failure, 261*
—choline theophyllinate in the management of bronchospasm, 271*
—effective prophylactic treatment of the anginal syndrome with choline theophyllinate, 263*
—effective use of choline theophyllinate in the treatment of bronchial asthma and premenstrual molimina, 265*
CHLORAMPHENICOL
—effect of chloramphenicol on the bone marrow in infants and children, 48
therapeutic use:
—chloramphenicol in chronic ulcerative colitis, blood counts over a four-year period in 67 patients and sensitivity studies of predominating organisms in stools, 48
CHLOROMYCETIN—*See Chloramphenicol.*
CHLORTETRACYCLINE
—prophylaxis of acute respiratory infections with oral penicillin or chlortetracycline (Aureomycin), 46
CHOROID
—choroidal carcinoma metastatic from the male breast, 536
CIGARETTES
—effect of cigarette smoking on flicker fusion threshold, clinical observations on normal smokers and nonsmokers, 678
CILIARY BODY
—ciliary body in accommodation and accommodation-convergence, 677
CINEMASCOPE—*See Motion Pictures, three dimension.*
CINERAMA—*See Motion Pictures, three dimension.*
COCHLEA
—effect of oxygen lack and decreased blood pressure on the microphonic response of the cochlea, 616
COLDS
—specific value of bacterial cold vaccination, a critical study based on selected and controlled trials with children of school age, 607

COLITIS
ulcerative:
—chloramphenicol in chronic ulcerative colitis, blood counts over a four-year period in 67 patients and sensitivity studies of predominating organisms in stools, 48
COLOBOMA
—congenital bilateral coloboma of iris and choroid, a case report, 526
COLOR VISION
—color and vision, 378
CONJUNCTIVA
—epitheloid cell granulomatosis (Boeck's sarcoid) of the conjunctiva, 176
CONVERGENCE—*See also Accommodation.*
—balancing accommodation and convergence by decentration of lenses, 381
—investigation of the time characteristics of accommodation and convergence, 168
—variation of proximal convergence with change in distance, 167
CORNEA
diseases:
—ballistic measurements in corneal disease using the Wiegersma elastometer, 679
surgery:
—posterior half-incision of cornea for astigmatism, 169
CORTISONE
—chemical burn of the esophagus, report of a case treated with cortisone and penicillin, 620
—cortisone and ozena, 298
—experimental exophthalmos produced by cortisone in rats, further observations, 682
CURARE
—present status of "curare" drugs, 433
CYCLODIATHERMY
—notes, cases, instruments, a correlation of intraocular pressures, with microscopic sections following cyclodiathermy on normal rabbits, 531
CYCLOPHORIA
—dependence of cyclophoria on convergence elevation and the system of axes, 675

D

DARK ADAPTATION
—effect of various durations of red adaptation on the course of subsequent dark adaptation, 672
DEAFNESS—*See also Hearing, tests.*
—loss of hearing following treatment with dihydrostreptomycin or streptomycin, 290
in children:
—auditory training for the pre-school hard of hearing child, 293
—clinical aspects of high tone perceptive deafness in children, 609
—hardness of hearing in school children, an audiometric testing of 2,550 pupils in municipal schools in Copenhagen, 608
—hearing and language evaluation with hard of hearing children, 294
treatment:
—perceptive deafness treated with vitamin-B complex and amino acids, 478
—private practice of auditory rehabilitation, 477
—vitamin A in treatment of tinnitus and chronic progressive deafness, 294
DERMATITIS
—allergic dermatitis, 578
DERMATOLOGY
—dermatological disorders commonly encountered in general practice, 434
D.F.P.
—susceptibility of the vestibular apparatus to antihistamines and D.F.P., 617
DIABETES MELLITUS
complications:
—diabetic retinopathy treated with testosterone, 172
DIBENAMINE
—dibenamine, an experimental and clinical study, 171
DIBENZYLAMINE PENICILLIN G
—laboratory and clinical experience with Dibenzylamine Penicillin G, 49
DIET
—diet and arteriosclerosis, 432
DIHYDROSTREPTOMYCIN
—loss of hearing following treatment with dihydrostreptomycin or streptomycin, 290
—vestibular apparatus intoxication of experimental animals with streptomycin and dihydrostreptomycin and mixtures, 98
DIPHTHERIA
—prophylaxis and treatment of measles and diphtheria, 577
DIPLOPIA
—correction of diplopia after fractures of the orbit, 525
DISEASE
—search for the philosophical nature of disease in the history of medicine, an introduction to Hans Selye's "Sketch for a unified theory of medicine," 179*
DYSPHAGIA
—dysphagia due to cervical spondylosis, 105
EAR
external—See also Otitis Externa.
—prophylaxis of external otitis, preliminary report, 475
internal—See also Vestibular Apparatus.
—some aspects of the sympathetic nervous system in relation to the inner ear, 291

E

EAR
middle—See also Otitis Media.
—arteries of the human middle ear with particular regard to the blood supply of the auditory ossicles, 296
EARDRUM—*See Tympanic Membrane.*
ECZEMA
—staphylococcic eczema of the eyelids, 683
EHRLICH, PAUL
—mind and world of Paul Ehrlich, 143*
—Paul Ehrlich—as man and scientist, 136*
EHRLICH (PAUL) MEMORIAL ISSUE, 1854–1954
—development of bacterial chemotherapy, homage to Paul Ehrlich, 109*

—mind and world of Paul Ehrlich, 143*
—Paul Ehrlich—as man and scientist, 136*
ELASTOMETER
—ballistic measurements in corneal disease using the Wiegersma elastometer, 679
ELECTROCARDIOGRAPHY
—electrocardiogram versus the ballistocardiogram, 55*
ELECTRORETINOGRAM
—effect of stimulus size and retinal illuminance on the human electroretinogram, 176
—electrical responses of the eyes, the electroretinogram, 379
EMOTIONS
—emotional and mental illness as disclosed in handwriting, 449*
ENDOCARDITIS
—therapeutic effect of erythromycin in endocarditis, 51
ENDOCRINES
—endocrine stress and aging, 424
ENDOCRINOLOGY
—practical application of endocrinology to other branches of medicine, illustrated by a case of male hypogonadism, 217
ENDOSCOPY
peroral:
—frozen section biopsy in peroral endoscopy, 481
—pethidine analgesia in peroral endoscopy, 482
—safer anesthetic for peroral endoscopy, 482
ENTROPION
—surgical correction of spastic senile entropion, a new method, 386
ENZYMES
—absorption of vitamins and enzymic activities in aging, 429
EPILEPSY
—gastrointestinal influences on seizures in the institutionalized epileptic, 489*
ERGONOVINE
—cardiac pain in man, blocking effect of ethyl chloride spray on the angina of ergonovine, 216
ERYTHROMYCIN
—clinical observations on the use of erythromycin, 51
—successful treatment with erythromycin of Hemophilus influenzae bacteremia and pneumonia, a case report, 53
—therapeutic effect of erythromycin in endocarditis, 51
ESOPHAGUS
—chemical burn of the esophagus, report of a case treated with cortisone and penicillin, 620
tumors:
—unusual neoplasms of the esophagus, 307
ETHMOID SINUS
—roentgenological examination of inflammatory affections of the ethmoid cells, 104
ETHYL CHLORIDE
—cardiac pain in man, blocking effect of ethyl chloride spray on the angina of ergonovine, 216
EXOPHTHALMOS
—visual changes in malignant exophthalmos, 534
experimental:
—experimental exophthalmos produced by cortisone in rats, further observations, 682
EYE MEDICATIONS
—contamination of eye medications, practical methods of prevention, 523
EYELIDS
—staphylococcic eczema of the eyelids, 683
—treatment of chronic lid conditions, 385, 532
ptosis:
—comments on the use of the ptosis crutch, 385
EYES
—electrical responses of the eyes, the electroretinogram, 379
—electric responses of the eye, optic nerve responses of complex eyes, 174
—electric responses of the eye, responses of single photoreceptors, 173
—electrical responses of the eyes, some sensory and clinical applications, 379
diseases:
—ocular abnormalities in poliomyelitis and their pathogenesis, 529
—ocular complications associated with malaria, 673
—uses and abuses of adrenal steroids and ACTH in ophthalmic diseases, 523
foreign bodies:
—extraction of foreign particles of a nonferrous metallic nature, preliminary experiments with a new electronic magnet, 684
—intra-ocular foreign bodies as a surgical emergency, 687
—intra-ocular foreign bodies, report of 102 cases, 536
infections:
—experimental intra-ocular infection with mumps virus, 673
retraction of:
—retraction syndrome, 525
tumors:
—aspiration biopsy in intraocular tumors, 170
—treatment of intra-ocular tumors with radon, 682
—use of radioactive phosphorus in detection of intra-ocular neoplasms, 674
—use of radioactive phosphorus (P32) in differentiating neoplastic from other intraocular lesions, 522

F

FACE
malformations:
—occurrence of slight facial malformations in cases of strabismus, 676
FAT EMBOLISM
—blood particle agglutination and fat embolism, 439*
FAT METABOLISM
—fat metabolism with particular reference to problems of aging, 426
FENESTRATION OPERATION
—aspects of hearing physio-pathology during the first postoperative period following fenestration, 613

—bone conduction studies after fenestration operation and predictions of hearing results, 614
—causes of failure in surgical fenestration, a follow-up of 3,000 consecutive cases, 611
—pitfalls of fenestration surgery, 295, 613
FISTULAE
oro-maxillary:
—closure of oro-maxillary fistulae, 472
FLICKER
visual:
—some effects of auditory stimuli on the perception of visual flicker, 165
FLICKER FUSION
—effect of cigarette smoking on flicker fusion threshold, clinical observations on normal smokers and nonsmokers, 678
FRONTAL SINUS
—roentgen diagnosis of secondary mucocele occurring in the frontal sinuses following radical operation, 472
FUNDUS
ocular:
—histological interpretation of fundus lesions, 379
FURADANTIN
—Furadantin in the treatment of infections due to antibiotic resistant organisms, 218

G

GALACTOSEMIA
—cataracts in galactosemia, 170
GARGOYLISM—*See Lipochondrodysplasia.*
GASTRECTOMY
—rationale of routine omentectomy in subtotal gastrectomy, 466
GASTRODUODENAL ULCER
—hormonal influences in peptic ulcer disease, 284
—study of the concentration of gastric acidity in peptic ulcer, 586*
GASTROINTESTINAL TRACT
—gastrointestinal influences on seizures in the institutionalized epileptic, 489*
GLAUCOMA
—angle-closure glaucoma, subacute types, 531
—bulbar pressure test in glaucoma, 530
—iritis and glaucoma associated with mumps, 683
surgery—See Goniotomy.
treatment:
—treatment of glaucoma with hydergine, 532
GONIOTOMY
—present status of goniotomy, 171
GOUT
—recognition and treatment of gout, 281
GRANULATION TISSUE
—local action of growth hormone on granulation tissue formation, 515

H

HANDWRITING
—emotional and mental illnesses as disclosed in handwriting, 449*
HARADA'S DISEASE
—Harada's disease—Vogt-Koyanagi syndrome, diffuse melanitis, 384
HEARING
loss of—See Deafness.
tests—See also Audiometry; Bone Conduction
—diagnosis by testing hearing above threshold, 100
—hearing problems, their detection and management, 220
—masking and fatigue effects of white noise in connection with speech tests in otosclerotic subjects, 98
HEARING AIDS
—aids to hearing, 294
HEART
surgery:
—some results of mitral commissurotomy, 465
HEART DISEASE—*See also Angina; Endocarditis*
—changing outlook in heart disease, an insurance viewpoint, 59*
—two new perspectives in heart disease, 55,* 59*
treatment:
—choline theophyllinate, a new xanthine drug for the effective oral treatment of congestive heart failure, 261*
HEMOFLUIDITY—*See Blood, coagulation.*
HEMOPHILIA
—diagnosis and treatment of hemophilia, 21*
HEMOPHILUS INFLUENZAE
—successful treatment with erythromycin of Hemophilus influenzae bacteremia and pneumonia, a case report, 53
HEMOPOIESIS
—hemopoietic factors in reference to aging, 422
HEMORRHAGIC DISORDERS
—clinical control of hemorrhagic disorders in children, 3*
—symposium on hemorrhagic disorders in infants and children, Editorial, 1*
HEREDITY
—hereditary defects of blood coagulation, 13*
HIBERNATION
artificial:
—application of artificial hibernation to war surgery in Indochina, 328*
—artificial hibernation, 321*
—artificial hibernation in neurosurgery, 347*
—biophilosophical significance of artificial hibernation, 309*
—general technic of artificial hibernation, 324*
—pharmacologic hibernation in lung surgery, 337*
—potentiated anesthesia, 315*
—renal function during artificial hibernation, 335*
—tissue respiration during artificial hibernation, 333*
HORMONES—*See also Endocrines.*
—hormonal influences in peptic ulcer disease, 284
—hormones and metabolism, 430

growth:
—local action of growth hormone on granulation tissue formation, 515
sex:
—use of sex homones in abnormal uterine bleeding, 468
HYDERGINE
—treatment of glaucoma with hydergine, 532
HYOSCINE
—absorption from nasal mucous membrane, systemic effect of hyoscine following intranasal administration, 297
HYPERTENSION
—evaluation of the newer drugs in the treatment of hypertension, 436
HYPOGONADISM
familial:
—familial hypogonadism, 218
male:
—practical application of endocrinology to other branches of medicine, illustrated by a case of male hypogonadism, 217
HYPOPHARYNX
—bilobed pulsion diverticulum of the hypopharynx, a historical summary and a case report, 480

I

INFANTS—*See Children—Newborn*
INFECTIONS
—spread of infectious agents in the human body, 573
—recent advances in the management of certain common infectious diseases, 283
focal:
—influence of focal infection on Ménière's disease, 292
INTRAOCULAR PRESSURE
—notes, cases, instruments, a correlation of intraocular pressures, with microscopic sections following cyclodiathermy on normal rabbits, 531
IRIS
sphincter:
—effect of physostigmine and pilocarpine on iris sphincter of normal man, 173
IRITIS
—iritis and glaucoma associated with mumps, 683
ISONIAZID—*See also Streptomyclidene Isonicotyl.*
—roentgen effects of isoniazid, 571

J

JAWS
—ankylosis of the jaw, 107
injuries:
—management of injuries of the nose and upper jaw, 473

K

NOSE
injuries:
—management of injuries of the nose and upper jaw, 473
mucous membrane:
—absorption from the nasal mucous membrane, 300
—absorption from nasal mucous membrane, systemic effect of hyoscine following intranasal administration, 297
polyps:
—regrowth of nasal polyps, 103
sprays:
—evaluation of a new spray device for intranasal medication, 102
surgery:
—deviated nose, 471
—influence of rhinologic surgery on upper respiratory tract symptoms, 606
—plastic method for creating an esthetic nasal tip, 297
—rhinoplasty, orthodox and heterodox, 300
tumors:
—malignant melanoma of the nasal septum, 471
—malignant tumors in nose and paranasal sinuses, 103
NUTRITION
—special nutritional problems of the aged, 429
—prescribing adequate nutrition, 579
NYSTAGMUS
—homolateral nystagmus in rabbits on caloric test, 617

O

OBJECTS
—relationship of the intrinsic geometric properties of an object to the apparent shape, 688
OBSTETRICS
—anesthesia in operative obstetrics, 359
OCCLUSION
—role of occlusion in amblyopia correction, 674
OLD AGE—*See also Aging.*
—long range study of broad spectrum antibiotics in elderly people, 49
OMENTECTOMY
—rationale of routine omentectomy in subtotal gastrectomy, 466
OPHTHALMOLOGY
—psychosomatic problems in ophthalmology, 685
research:
—eye research in relation to organizations for the blind, a new example of teamwork, 164
OPHTHALMOPLEGIA
—chronic progressive external ophthalmoplegia, a clinical and neuropathologic report, 380
OPHTHALMOSCOPE
—ophthalmoscopic examination in routine office practice, 533
ORBIT
fracture:
—correction of diplopia after fractures of the orbit, 525
ORGAN OF CORTI
—structure of the organ of Corti, 2, supporting structures and their relations to sensory cells and nerve endings, 100
ORTHO-RATER
—effect of tripelennamine hydrochloride on visual acuity, color perception and stereoptic perception as evaluated by the Ortho-Rater, 159*
OSLER, SIR WILLIAM
—Osler, Johns Hopkins to Oxford, 557*
—Osler, student, professor, author, 449*
OSSICLES
—arteries of the human middle ear with particular regard to the blood supply of the auditory ossicles, 296
—changes in otologic patterns following inadequate penicillin therapy, 96
—clinical and bacteriological examination of a series of cases of otitis as regards the significance of resistance determinations, 618
—treatment of otitis externa and chronic otitis media with sodium sulamyd solution 30%, 95
OTOSCLEROSIS
—masking and fatigue effects of white noise in connection with speech tests in otosclerotic subjects, 98
—observations on the pathology of otosclerosis, 101
surgery—See Fenestration Operation.
OVERHOLSER, WINFRED
—presentation of Distinguished Service Award, Gold Medal, to, 206
OXYGEN
—oxygenation and retrolental fibroplasia, 681
OZENA
—cortisone and ozena, 298

P

PALATE
—mixed tumors of soft palate and parotid gland, case report, 605
PANCREAS
diseases:
—recognition and management of diseases of the pancreas, 357
PARANASAL SINUSES
—sinus disease in the antibiotic era, 601
tumors:
—malignant tumors in nose and paranasal sinuses, 103
PAROTID GLAND
—mixed tumors of soft palate and parotid gland, case report, 605
PEMPHIGUS VULGARIS
—further studies of the etiologic agent in pemphigus vulgaris, 437
PENICILLIN
—changes in otologic patterns following inadequate penicillin therapy, 96
—chemical burn of the esophagus, report of a case treated with cortisone and penicillin, 620
oral administration:
—laboratory experience and tolerance studies with the new oral stable suspension of Potassium Penicillin G, 52
—prophylaxis of acute respiratory infections with oral penicillin or chlortetracycline (Aureomycin), 46
preparations—See Bicillin; Dibenzylamine Penicillin G
PEPTIC ULCER—*See Gastroduodenal Ulcer.*
PETHIDINE
—pethidine analgesia in peroral endoscopy, 482
PHARYNGOLARYNGEAL GROOVE
—cancer of the pharyngo-laryngeal groove with special reference to the sinus pyriformis, 304
PHARYNX—*See also Hypopharynx.*
tumors:
—transitional cell papilloma of the postpharyngeal wall, 303
PHENYLBUTAZONE
—agranulocytosis associated with phenylbutazone therapy, 483*
PHOSPHORUS
radioactive—See Radioactive Isotopes.
PHYSICIANS
—artist as physician, medical philosophy in the Renaissance, 221*
—role of the physician in matters pertaining to legal competency, 70*
PHYSOSTIGMINE
—effect of physostigmine and pilocarpine on iris sphincter of normal man, 173
PILOCARPINE
—effect of physostigmine and pilocarpine on iris sphincter of normal man, 173
PITUITARY GLAND
anterior:

—traumatic lesion of the optic chiasma with anterior pituitary insufficiency, 530
POLIOMYELITIS
—diagnosis of poliomyelitis, 517
—incidence of poliomyelitis following tonsillectomy or adenotomy, 108
—tonsillectomy and poliomyelitis, 301
eyes in:
—ocular abnormalities in poliomyelitis and their pathogenesis, 529
—treatment of the usual case of poliomyelitis, 516
POLLENS
—studies on the histopathology of pollinosis, especially concerning the absorption of pollen through the nasal mucosa, 104
PROTEIN METABOLISM
—protein metabolism, with particular reference to problems of aging, 428
PSYCHOSES
—emotional and mental illnesses as disclosed in handwriting, 449*
—reproduction of psychosis in science fiction, 407*
PSYCHOSOMATIC MEDICINE
—psychosomatic problems in ophthalmology, 685
PSYCHOTHERAPY
—comments on a psychotherapeutic session with a space child, 592*
PURPURA
thrombocytopenic:
—idiopathic thrombocytopenic purpura in childhood, 34*
PYRIBENZAMINE—*See Tripelennamine Hydrochloride.*
PYRIDOXINE
—some abnormalities in pyridoxine metabolism in human beings, 437

R

RADIATION THERAPY—*See also Radon.*
—angiomatosis retinae (Von Hippel's disease) 11 years after irradiation, 386
—late results of treatment by interstitial irradiation of one hundred cases of carcinoma of the bronchus, 306
—results of roentgen therapy in cancer of the larynx, 304
RADIOACTIVE ISOTOPES
—use of radioactive phosphorus in detection of intra-ocular neoplasms, 674
—use of radioactive phosphorus (P32) in differentiating neoplastic from other intraocular lesions, 522
RADIOGRAPHY—*See Roentgenography.*
RADON
—treatment of intra-ocular tumors with radon, 682
READING
—seeing and reading, 168
RECESSION OPERATIONS
—recession under Tenon's capsule, 387
REFRACTION
—changes in refraction during life, 679
RENAISSANCE
—artist as physician, medical philosophy in the Renaissance, 221*
RESPIRATORY TRACT
—influence of rhinologic surgery on upper respiratory tract symptoms, 606
infections:
—prophylaxis of acute respiratory infections with oral penicillin or chlortetracycline (Aureomycin), 46
RETINA—*See also Electroretinogram.*
diseases:
—angiomatosis retinae (Von Hippel's disease) 11 years after irradiation, 386
—diabetic retinopathy treated with testosterone, 172
RETROLENTAL FIBROPLASIA
—oxygenation and retrolental fibroplasia, 681
—retrolental fibroplasia, an ophthalmic-pediatric-obstetric problem, 528
RHEUMATIC FEVER
prophylaxis:
—evaluation of dibenzylethylenediamine penicillin (Bicillin) in the prevention of rheumatic fever by treatment of the preceding streptococcal illness, 52
—prophylaxis against group A streptococci in rheumatic fever patients by the use of single monthly injections of N,N′ dibenzylethylenediamine dipenicillin G (Bicillin), progress report, 46
RHINITIS
atrophic:
—bone graft for atrophic rhinitis, 299
vasomotor:
—results of treatment of chronic vasomotor rhinitis, response to physical treatment, 607
RICKETTSIAL DISEASES
—antibiotic therapy of rickettsial diseases, 546*
ROENTGENOGRAPHY
—emergencies in the newborn and their x-ray evaluation, 283
—radiologic signs of trauma to the growing skeleton, 580
—roentgen diagnosis of secondary mucocele occurring in the frontal sinuses following radical operation, 472
—roentgen effects of isoniazid, 571
—roentgenologic examination of inflammatory affections of the ethmoid cells, 104
RUBELLA
—the rubella problem, 572
RUTICIN
—ruticin, a new antibiotic, 54

S

SARCOID
—epitheloid cell granulomatosis (Boeck's sarcoid) of the conjunctiva, 176
SCIENCE FICTION
—reproduction of psychosis in science fiction, 407*
SCLERA
blue:
—three generation pedigree of the blue sclerotics syndrome, 527
SEAGRAVE, GORDON S.
—biography, 87*
SEASICKNESS—*See Motion Sickness.*

SELYE, HANS
—biography, 203*
SINUS PYRIFORMIS
—cancer of the pharyngo-laryngeal groove with special reference to the sinus pyriformis, 364
SINUSES—*See Paranasal Sinuses and under names of individual sinuses.*
SKIN
diseases:
—dermatological disorders commonly encountered in general practice, 434
SLIT LAMP
—hand slit lamp, its functions and techniques in office practice, 166
SMALLPOX
vaccination:
—changes in the brain following smallpox vaccination, 431
SMELL
sense of:
—observations on the comparative anatomy and physiology of olfaction, 608
—quantitative studies on the function of smell, 298
SODIUM SULAMYD
—treatment of otitis externa and chronic otitis media with sodium sulamyd solution 30%, 95
SPACE PERCEPTION
—an account of recent investigations relating to the Luneburg theory of binocular space perception, 166
—Luneburg distortion of Vieth-Mueller circles, 166
SPINE
osteoarthritis—See Spondylosis.
SPONDYLOSIS
cervical:
—dysphagia due to cervical spondylosis, 105
STAPHYLOCOCCI
—problem of antibiotic therapy in staphylococcal septicemia, 50
STEREOPHOTOGRAPHY
—stereophotographic and stereophotogrametric reproduction of the cornea and sclera of the living eye, 677
STEROIDS
adrenal—See also Cortisone.
—uses and abuses of adrenal steroids and ACTH in ophthalmic diseases, 523
STOMACH
secretions:
—ascorbic acid levels in blood and gastric secretions, 465
STRABISMUS
—cross-eyed child, 675
—occurrence of slight facial malformations in cases of strabismus, 676
STREPTOCOCCI—*See Rheumatic Fever, prophylaxis.*
STREPTOHYDRAZID
—clinical study of streptohydrazid in pulmonary tuberculosis, 47
STREPTOMYCIN—*See also Streptomyclidene Isonicotyl.*
—an early symptom of streptomycin neurotoxicity, 172
—loss of hearing following treatment with dihydrostreptomycin or streptomycin, 290
—vestibular apparatus intoxication of experimental animals with streptomycin and dihydrostreptomycin and mixtures, 98
STREPTOMYCLIDENE ISONICOTYL
—use of intermittent streptomyclidene isonicotyl, 581*
SURGERY
—eight clinical cases from the notebook of a Burma surgeon, 79*
SYMPATHETIC NERVOUS SYSTEM
—some aspects of the sympathetic nervous system in relation to the inner ear, 291

T

TEMPORAL BONE
—glomus tumors of the temporal bone, 619
—surgery of the temporal bone, 96
TENON'S CAPSULE
—recession under Tenon's capsule, 387
TESTOSTERONE
—diabetic retinopathy treated with testosterone, 172
TETRACYCLINE
—new broad spectrum antibiotic product of the tetracycline group, 53
—pharmacology of tetracycline, 45
—tetracycline—microbiological, pharmacological and clinical evaluation, 45
THEOPHYLLINE—*See also Choline Theophyllinate.*
—Symposium on new pharmacologic and clinical perspectives of oral theophyllin therapy, 245–273
THERAPEUTICS
—effectiveness of therapeutic procedures dependent upon the rationale underlying them, 685
THROMBOCYTOPENIA
—neonatal thrombocytopenia, 27*
TINNITUS
—pure-tone tinnitus evoked by acoustic stimulation, the idiophonic effect, 101
—vitamin A in treatment of tinnitus and chronic progressive deafness, 294
TONSILLECTOMY
—incidence of poliomyelitis following tonsillectomy or adenotomy, 108
—tonsillectomy and poliomyelitis, 301
TONSILS
—further experience with wet-suction irrigation of the tonsils, 474
—histological test of tonsillar activity based on the reticuloepithelial interplay, 475
—tonsil problem in review, some concepts, comments and conclusions, 302
TORTICOLLIS
ocular:
—case of ocular torticollis, 675
TOXOPLASMOSIS
—ocular toxoplasmosis, contribution to the study of ocular symptoms in infant toxoplasmosis, proved by finding of the parasite, 175

TRACHOMA
symblepharon:
—operative treatment of trachomatous symblepharon, 169
TRIGEMINAL NERVE
—trigeminal symptoms in acoustic nerve tumors, 476
TRIPELENNAMINE HYDROCHLORIDE
—effect of tripelennamine hydrochloride on visual acuity, color perception and stereoptic perception as evaluated by the Ortho-Rater, 159*
TUBERCULOSIS
treatment:
—antimicrobial agents in the management of pulmonary tuberculosis, 279
—basic principles in the treatment of pulmonary tuberculosis, 278
—chemotherapy in certain forms of juvenile tuberculosis, 571
—clinical study of streptohydrazid in pulmonary tuberculosis, 47
—roentgen effects of isoniazid, 571
—treatment of acute tuberculosis, 539*
—use of intermittent streptomyclidene isonicotyl, 581*
TUBEROUS SCLEROSIS
—tuberous sclerosis, a case report, 295
TYMPANIC MEMBRANE
—simplified method of patching traumatic perforations of the tympanic membrane, 97

U

URINE
—aminoacidurias, 213
UTERUS
hemorrhage:
—use of sex hormones in abnormal uterine bleeding, 468
UVEITIS
—antihyaluronidase and antistreptolysin titers in uveitis, 680
—endogenous uveitis in children, 169
—new phenomenon observed in the anterior vitreous body in the course of uveitis, 527
—uveitis in children, 384
